Dear ParMasters,

What can I say except....thank you...thank you...thank you!!! I must admit, after trying almost every gizmo, training aid and traditional golf lessons, I initially thought you were just another scheme to get more of my money. I am thrilled to report that you are everything you promised you would be!!

I started "playing" golf almost 23 years ago. My typical round was shank, hook, toe, heel, duff...duff...duff. I tried almost everything...to no avail. Once and awhile I'd hit a great shot, but rarely, if ever, two shots in a row. I had no confidence in my swing, or basic mechanics. You changed all that....completely. I still have more to learn, but I look forward to every shot I get to make.

Now, when I get up to the ball, I have a proven routine to follow, and HACK...the ball is in the short grass. My tee shots are more likely to hit the fairway as not; my second shots are finding the green (or getting close); my chipping is getting the ball close to the hole, and I am sinking more putts (or at least getting in close). Before I started working with you, I was posting scores around 105-110 (and that was using the foot wedge and winter rules). I am thrilled to be posting scores in the low to mid 90s (playing it where it lays) and this after only the Straight Line Seminar and two lessons. I truly believe I will break into the 80's this year and only improve more and more using the system you developed.

I poo-pooed your facility the first time I saw it, thinking that it was all artificial, and had no direct link to the 'real' golf environment. Well, once again I was wrong. I found that the true worth of the facility was in the opportunity to develop my skills in a controlled environment and this has directly translated to the course. The bottom line is: I am very confident in my swing; I am scoring lower - hitting better and being more accurate, and enjoying the time on the course a whole lot more. You have put the fun back into the game for me.

Your system is excellent; the staff is wonderful and a ton of help anytime I need it, and YOUR SYSTEM REALLY WORKS!!!

Again, Thank You!!

Best regards,
